

DESIGN FACT SHEET

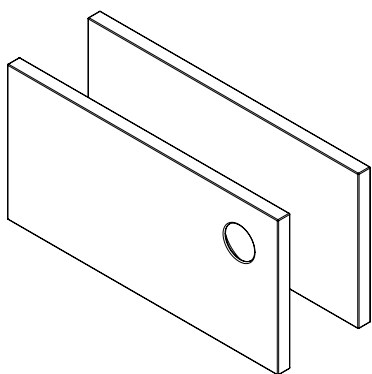

BASIS

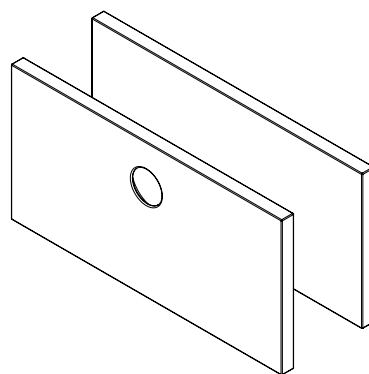

INTRO

BASIS takes the timeless Scandinavian architect kitchens of the 1960s as its starting point and brings them into a Miami home. A new reading of the iconic round handle sits at its functional centre. It comes in three variants — painted, linoleum and veneer — across a wide range of lasting colours and materials, which makes BASIS the most customisable and versatile kitchen we build.

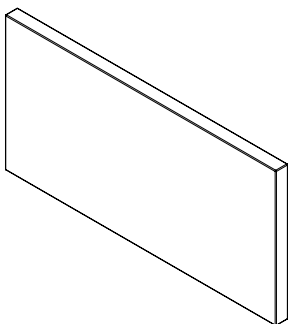

BASIS is made for everyday living. It is our standing invitation to live well on a day-to-day basis.

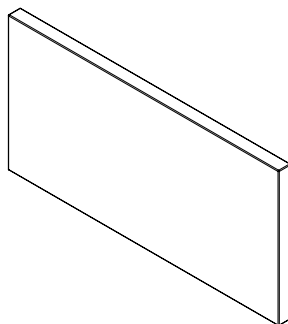

Doors

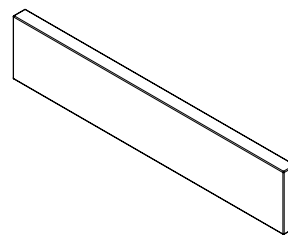

Drawers

Cover panels

Inserts

Plinths

The BASIS design comes in four different styles; painted, linoleum, natural veneered oak and smoked veneered oak. All four styles are characterized by the classic carpenter-milled-in round handle—a detail that brings warmth and elegance to the design.

The standard BASIS design comes in 18 different colors, letting you choose your own unique and personalized expression. The linoleum fronts are produced with a MDF veneered – in either natural oak or smoked oak – on the back and solid oak on the edges.

Veneer and linoleum are both natural materials. Hence, differences in shading may occur. Natural oak contains many different nuances, which are a natural part of the vibrant structure of the tree. As a result of these material properties, each order comes with a unique variation caused by the grain of the wood.

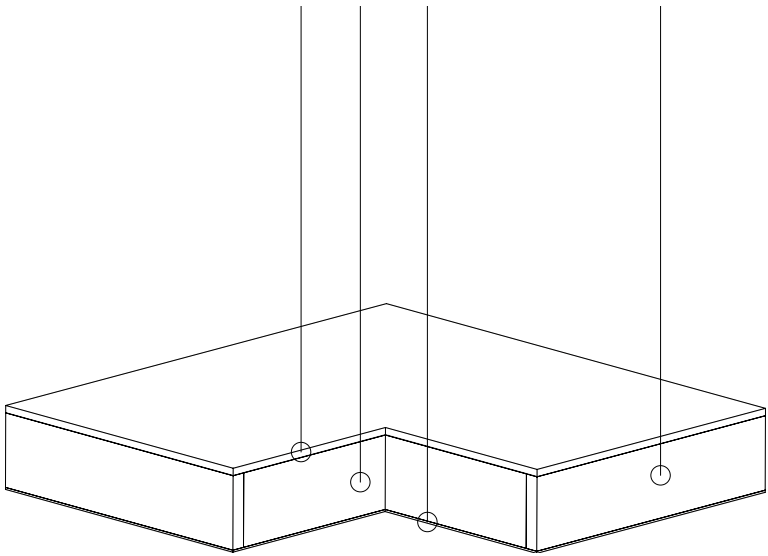

LINOLEUM—Multiple colors

PAINTED—Multiple colors

OAK—Natural / Smoked

Doors, Drawers and Blinds

Total thickness	21 mm / 27/32"
Corners and edges	Radius 2-3 mm / 1/16 - 1/8"
Surface treatment	-

A – Front	2 mm / 3/32" Forbo furniture linoleum
B – Core	18 mm / 23/32" standard MDF
C – Back	0.5 mm / 1/32" veneered European oak
D – Edgeband	3 mm / 1/8" solid European oak

Please note that measurements may vary according to material tolerances

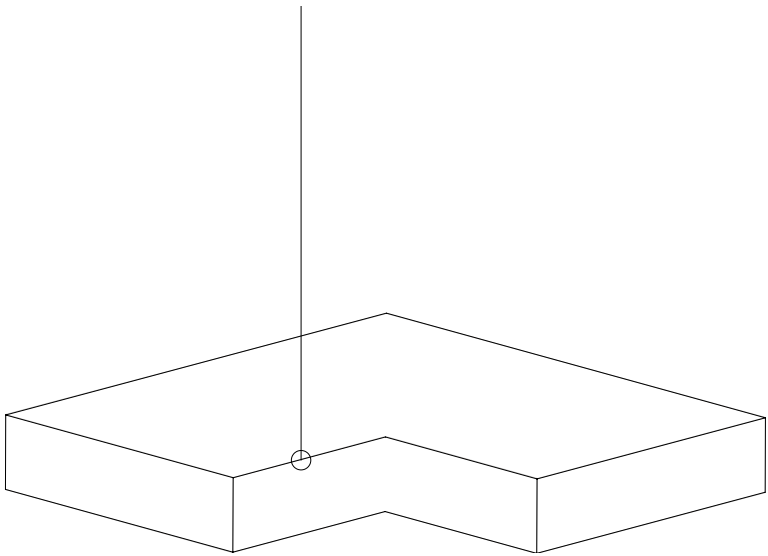

Cover Panels, Inserts and Plinths

Cover panels, inserts and plinths are designed to match the fronts with identical composition and thickness.

Care and maintenance

The linoleum fronts can be cleaned with a pH neutral detergent and preferably linoleum cleaner. To ensure that the linoleum stays durable and retains its finish over time, we recommend an occasional deep cleaning using a linoleum care product. This makes the linoleum more resilient and resistant to wear and impact.

Doors, Drawers and Blinds

Total thickness	19 mm / 3/4"
Corners and edges	Radius 2 mm / 3/32"
Surface treatment	Painted (polyurethane, two component, gloss 25)
A – Front	19 mm / 3/4" painted standard MDF
B – Core	–
C – Back	–
D – Edgeband	–

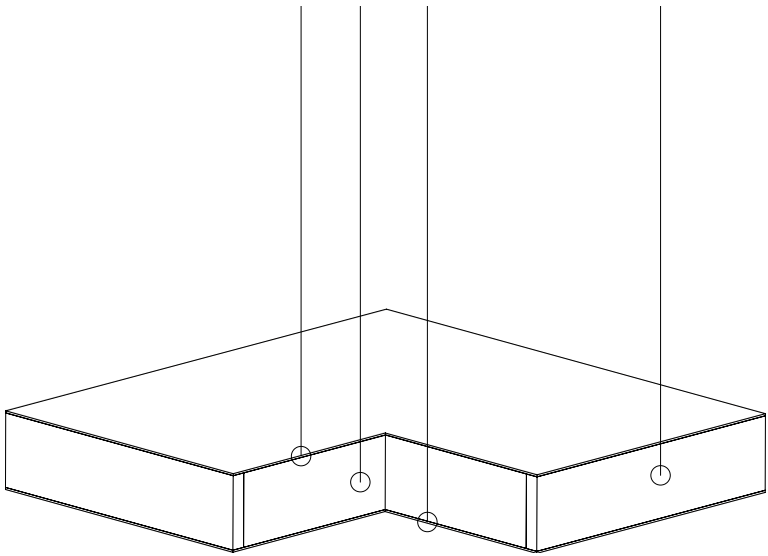

Please note that measurements may vary according to material tolerances

Cover Panels, Inserts and Plinths

Cover panels, inserts and plinths are designed to match the fronts with identical composition and thickness.
Care and maintenance

The painted fronts can be cleaned with a soft cloth wrung in warm water and normal, mild household detergent. Remember to finish by wiping off with a dry soft cloth.

Doors, Drawers and Blinds

Total thickness 19 mm / 3/4"

Corners and edges Radius 2-3 mm / 1/16 - 1/8"

Grain direction Vertical

Surface treatment Beeswax

- A – Front 0.5 mm / 1/32" veneered European oak
- B – Core 18 mm / 23/32" standard MDF
- C – Back 0.5 mm / 1/32" veneered European oak
- D – Edgeband 3 mm / 1/8" solid European oak

Please note that measurements may vary according to material tolerances

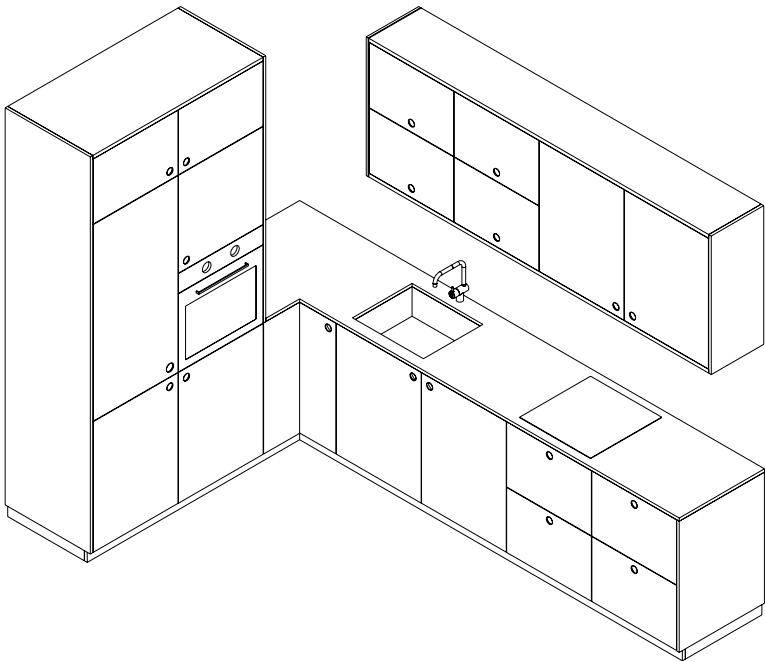

Cover Panels, Inserts and Plinths

Cover panels, inserts and plinths are designed to match the fronts with identical composition and thickness.

Care and maintenance

The fronts in veneered oak can be cleaned by wiping a soft, lint-free cloth with lukewarm water in the direction of the grain. In addition, a biannual treatment with either natural or dark beeswax is recommended.

Design recommendations

BASIS is a flexible design with a wide range of colors and options to suit your taste and needs. You can choose one variant for a clean, uniform look or combine different colors to create a more playful kitchen.

Complete the BASIS design with cabinets and wooden drawers in natural oak to complement the oak details in the design such as the oak edge on the linoleum fronts or the oak handles in the painted variant.

Handle specifications

Variants	Painted
	Natural oak
	Smoked oak
Dimensions	Diameter 44 mm / 1 3/4"

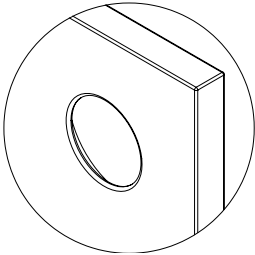

Countertop recommendations

We recommend combining the BASIS design with a countertop in linoleum. The solid oak edge on the countertop complements the natural oak of the milled-in BASIS handle, making the whole kitchen elegant and complete. As an alternative to linoleum, we recommend a solid wood countertop as it complements the BASIS handle.

Handles

The BASIS handle is a circular handle with a diameter of 44 mm / 1 3/4" and a depth of 15 mm / 19/32". The handle is available in natural oak veneer, smoked oak veneer or a spray-painted veneer with visible wood grain.

The design can also be ordered without handles, leaving the possibility of mounting a handle of your own choice onto the design—or choosing a push-to-open solution.
